General Weekly Report

Our weekly publication looks at the preceding week with a great analytical lens, this publication not only covers the main economic and business topics but also provides the reader with charts, analyses, and market reviews. The emphasis here is on comprehensiveness; if macroeconomic data is published during the week we will get beyond the headlines and provide you with the nuances that the subject entails. The performances of the main indexes of the Tehran Stock Exchange are fully covered with the relevant charts and analyses. Moreover we extensively cover the financial news and risk assessment of the investment environment in Iran with an eye on the foreign exchange rate market.
